

## Literacy

In year 1 we continue to work hard in our Read Write Inc groups reading short stories. We are working hard on remembering our set 2 and set 3 sounds and how to spot and blend them in real and nonsense words. We will be writing sentences about the stories we read. We will also be looking at traditional tales and recount writing. The traditional tale we will be looking at in more detail will be Jim and the beanstalk. We will be describing the characters thoughts, feelings, and appearance.

## Art/DT

Our art work will focus on our school take one picture project. We have been chosen to work alongside other schools to work on a special project that the national art gallery in London has chosen. We will be designing and creating our own costumes for our own special parade.

In D and T we will be looking at healthy eating. We will be looking at different fruits and vegetables and creating our own recipes.

## Numeracy

We are continuing to look at numbers to 30. We are learning how to add and subtract numbers up to 30 using a number line. We will be looking at place value and the value of each digit in a number.

We are continuing to work hard on our individual maths targets to develop our mental maths.

## RE

In RE we will be looking at Buddhism. We will be looking at who Buddha is and why he is special. We will be learning about how we can be kind and helpful like Buddha.

## Computing

In computing we will become story tellers and make our very own audio book. We will be learning how to record our voice and make sound effects that match the story.

## Science

In science the two units we will be looking at are materials and light and sound. In unit one we will be looking at objects around us and indentifying the materials that they are made from. We will complete some experiments to discover why different materials are best suited to make different objects. In our second unit we will be looking at where light comes from and how sounds can be different.

## History/Geography

In History we will be looking at famous explorers. We will be looking at Christopher Columbus and Neil Armstrong. We will look at how they travelled, when they lived and what they were famous for.

In Geography we will be looking at our local area. We will be learning how to look at maps and recognise the symbols on the maps.
