

## English

In English this term, we will look at "Handa's Surprise", "Amazing Grace" and "The Lighthouse Keeper's Lunch", and do a variety of writing activities around these texts. We will also work on instructions, looking at different features of instructional texts before going on to write our own. Alongside this, the pupils will continue with their Read Write Inc. sessions three times a week.

## RE

This term, we are asking why Jesus is special to Christians. We are looking at the parables Jesus told and the miracles he performed. We will then go on to learn about the Easter story and why it is an important time for Christians.

## Humanities

We will start the new term with History, learning about the Great Fire of London. This will include learning about the key events of the fire, as well as comparing life in the 1600s to life now. We will also be visited by the fire brigade! Following this, we will be starting the Geography topic of weather, looking at weather and seasonal patterns of the UK.

## Computing

This term in computing, we are looking information technology. We will use a Paint program to create images for e-books as well as develop our word processing skills. We will also discuss how to best keep safe on the internet.

## Art/DT

For the first half term, we will be looking at a range of colours, including how to mix to make secondary colours and how to add white and black to make tints and shades. After half term, we will be starting our DT topic on bunting, learning the skills needed to make bunting with an Easter theme.

## Maths

This term, we will continue to build up skills in addition, subtraction, multiplication and division, as well as extend our understanding of place value. We will also begin to look at 3D shapes and their properties. Following this, we will look at different measurements; time, mass, volume and capacity, and extend our work on fractions to finding a half and a quarter of amounts.

## PE

In P.E. this term, we will develop our movement skills. We will create and perform a dance for the school dance festival, as well as begin our work on gymnastics.

## Music

In music, we are working on finding the pulse in a song. We are practising keeping in time with the pulse of the song with our hands and with various instruments. We will go on to look at rhythm within different pieces of music.

## Science

This term, we are looking at different materials. We will explore different materials and discuss their properties, before going onto looking at why certain materials are better suited for different objects than others. We will experiment with different materials to find out about their properties.
