

At West Rainton Primary School our aim is to provide all pupils with a high quality, meaningful RE curriculum which explores questions of beliefs and values in an ever-changing society. We are passionate that all children should be able to express themselves freely, feel valued, and in turn, do the same for others. Through our rich and varied curriculum, we believe our school community fully prepares our pupils to become successful members of a diverse but cohesive society.

As a teacher and subject leader, I believe that it is beneficial for our pupils to understand the diverse world in which we live. My vision is for our pupils to be given valuable insights into the diverse beliefs and opinions held by people today. I believe this helps with their own personal development and supports an understanding of the spiritual, moral, social & cultural questions that may surface again and again throughout their lives.

The ultimate aim of our carefully designed and balanced RE curriculum is to ensure that our pupils leave primary school as well-rounded, emotionally intelligent individuals who are able to reflect on their own values, morals and beliefs, thus heightening their respect and empathy for others.

Julia Struthers
